Wangen (Göppingen), December 12, 2018. Big day for little soccer players: RAMPF Machine Systems supported the 7th Kid's Soccer Day at the Elementary School Wangen with a donation of 300 euros.

“Sports, Fun & Games” – the motto of the 7th Kid's Soccer Day at the Elementary School Wangen on December 11, 2018, certainly came true for the 32 participating girls and boys between the ages of eight and ten. For several hours, they enthusiastically kicked and chased the ball all across the sports hall. Professional trainers from a qualified soccer school passed on their knowledge to the kids, who were then able to prove their newly acquired skills during a final game.

Local companies mainly finance the soccer days, which take place throughout Germany. “We are very happy that we were able to contribute to this great event with our donation”, says Thomas Altmann, CEO of RAMPF Machine Systems. “As a medium-sized family company, the support of such social projects is a matter of course.”

The girls and boys, school principal Anja Fischer (right), Visnja Rauch (HR Director at RAMPF Machine Systems; left), and the soccer coach had a great time at the 7th Kid's Soccer Day in Wangen.

Heaps of Goals and Lots of Fun

RAMPF Machine Systems GmbH & Co. KG, based in Wangen (near Göppingen), Germany, is the leading supplier and development partner for system solutions, trunk machines, and basic machines, as well as multi-axis positioning and moving systems based on high-precision machine beds and machine bed components made from alternative materials.

The portfolio of high-performance materials includes mineral casting, ultra-high performance concrete (UHPC), natural hard stone, metal foam, and fiber composites. These materials provide a solid basis for ultra-precise and high-performance machine beds and machine bed assemblies.

The full range of services provided by the company includes everything from engineering to production, as well as assembly, system solutions, customer-specific multi-axis positioning and moving systems, and basic machines – from single-piece to series production in customized supply chain solutions.

Using innovative casting, grinding, and lapping processes, as well as high-performance assembly and testing equipment in temperature-controlled production environments, exceptional accuracy of machine bases and basic machines is guaranteed.

RAMPF Machine Systems is a company of the international **RAMPF Group** based in Grafenberg, Germany.
