Grafenberg, Germany, September 21, 2023. The RAMPF Group and the German basketball Bundesliga team Tigers Tübingen have extended their sponsoring partnership by a further three years until and including the 2025/26 season. RAMPF has been supporting Tigers Tübingen since 2021.

A sporting partnership (from left to right) – Michael Rampf (CEO RAMPF Group), Prof. Dr. Michael Bamberg (CEO ProBasket Tübingen AG), Christoph Koppensteiner (Partnerships & Cooperations Tigers Tübingen), and Matthias Rampf (CEO RAMPF Group).

Matthias Rampf, CEO RAMPF Group – “The Tigers have been promoted to the top tier of German basketball again, and that’s where they belong! We are looking forward to the upcoming season and are convinced that the players will inspire their fans with passion and team spirit. For RAMPF, the Tigers are a great platform to make our Group even better known in the Tübingen region and beyond. The main objective is to draw attention to the attractive jobs and career opportunities in the chemical and mechanical engineering sectors as well as in administration.”

Jascha Maus, General Manager Tigers Tübingen – “With RAMPF and the close cooperation with Michael and Matthias Rampf and their team we have a partner at our side who exemplifies the development of our club. Together we are growing and continuously tackling new tasks. We are united by a very

dynamic and passionate corporate culture and the sporting spirit of always wanting to develop further. We are very happy about the expansion of our partnership!"

Tigers Tübingen will start the 2023/24 easyCredit Basketball Bundesliga season on September 28 with an away game against the Telekom Baskets Bonn. Already on September 23, BB Löwen Braunschweig will come to Tübingen's Paul Horn Arena for the first round of the cup competition.

The companies of the RAMPF Group support numerous regional and local clubs in handball, soccer, tennis, and athletics. This involves both the promotion of sports and performing social functions.

The RAMPF Group stands for **engineering & chemical solutions** and caters to the economic and ecological needs of industry with six core competencies:

- > **RAMPF Machine Systems** based in Wangen (Göppingen), Germany, develops and produces multi-axis positioning and moving systems, trunk machines, and basic machines based on high-precision machine beds and machine bed components made from alternative materials such as mineral casting, ultra-high performance concrete, and hard stone.
- > **RAMPF Production Systems** based in Zimmern o. R., Germany, develops and produces production systems with integrated dispensing technology for bonding, sealing, foaming, and casting a wide variety of materials. The company also offers an encompassing range of automation solutions relating to all aspects of process engineering.
- > **RAMPF Composite Solutions** based in Burlington, Ontario, Canada, is a holistic composites supplier to companies in the aerospace, defense, transportation, medical, and green technology industries. The company offers a complete suite of services including composite part design and engineering, and metal-to-composite conversion engineering.
- > **RAMPF Eco Solutions** based in Pirmasens, Germany, develops chemical solutions for the manufacture of high-quality recycled polyols from polyurethane and PET waste materials. This company also designs and builds customized multi-functional plants for customers for the manufacture recycled polyols.
- > **RAMPF Polymer Solutions** based in Grafenberg, Germany, develops and produces reactive resin systems based on polyurethane, epoxy, and silicone. Its product portfolio includes liquid and thixotropic sealing systems, electro and engineering casting resins, edge and filter casting resins, and adhesives.
- > **RAMPF Tooling Solutions** based in Grafenberg, Germany, develops and produces board and liquid materials for cutting-edge modeling and mold engineering. The range of skills includes made-to-measure services and products such as pastes, large-volume and full-size castings for Close Contour models, and prototyping systems.

RAMPF has more than 850 employees and subsidiaries in Germany, the United States, Canada, Japan, China, and Korea.

All RAMPF companies are united under a holding company – RAMPF Holding GmbH & Co. KG – based in Grafenberg, Germany.
